NATURA NATURANTE

Design by Studio Bojola

Natura Naturante draws inspiration from the healing power of Nature. Like a shell that shelters a sunken vase at the bottom of the sea creating a new shape by melting with it. The original Ceramiche Ceccarelli models are re designed, cut and re assembled to create something different, new and yet that preserves the original artistic legacy of the firm. Each piece is hand modeled and hand patinated and therefore a unique piece of art.

MATT

Design by Studio Bojola

Uneven surfaces reminiscent of the lunar soil. This series of essential shapes feature sinuous rounded amphora shapes and soft matt finishings. Designed to add the authenticity that distinguishes a piece made by hand, both to a sleek interior and to an earthy outdoor. Each piece is hand modeled and hand patinated and therefore a unique piece of art.

Mediterraneo

Curated by Studio Bojola

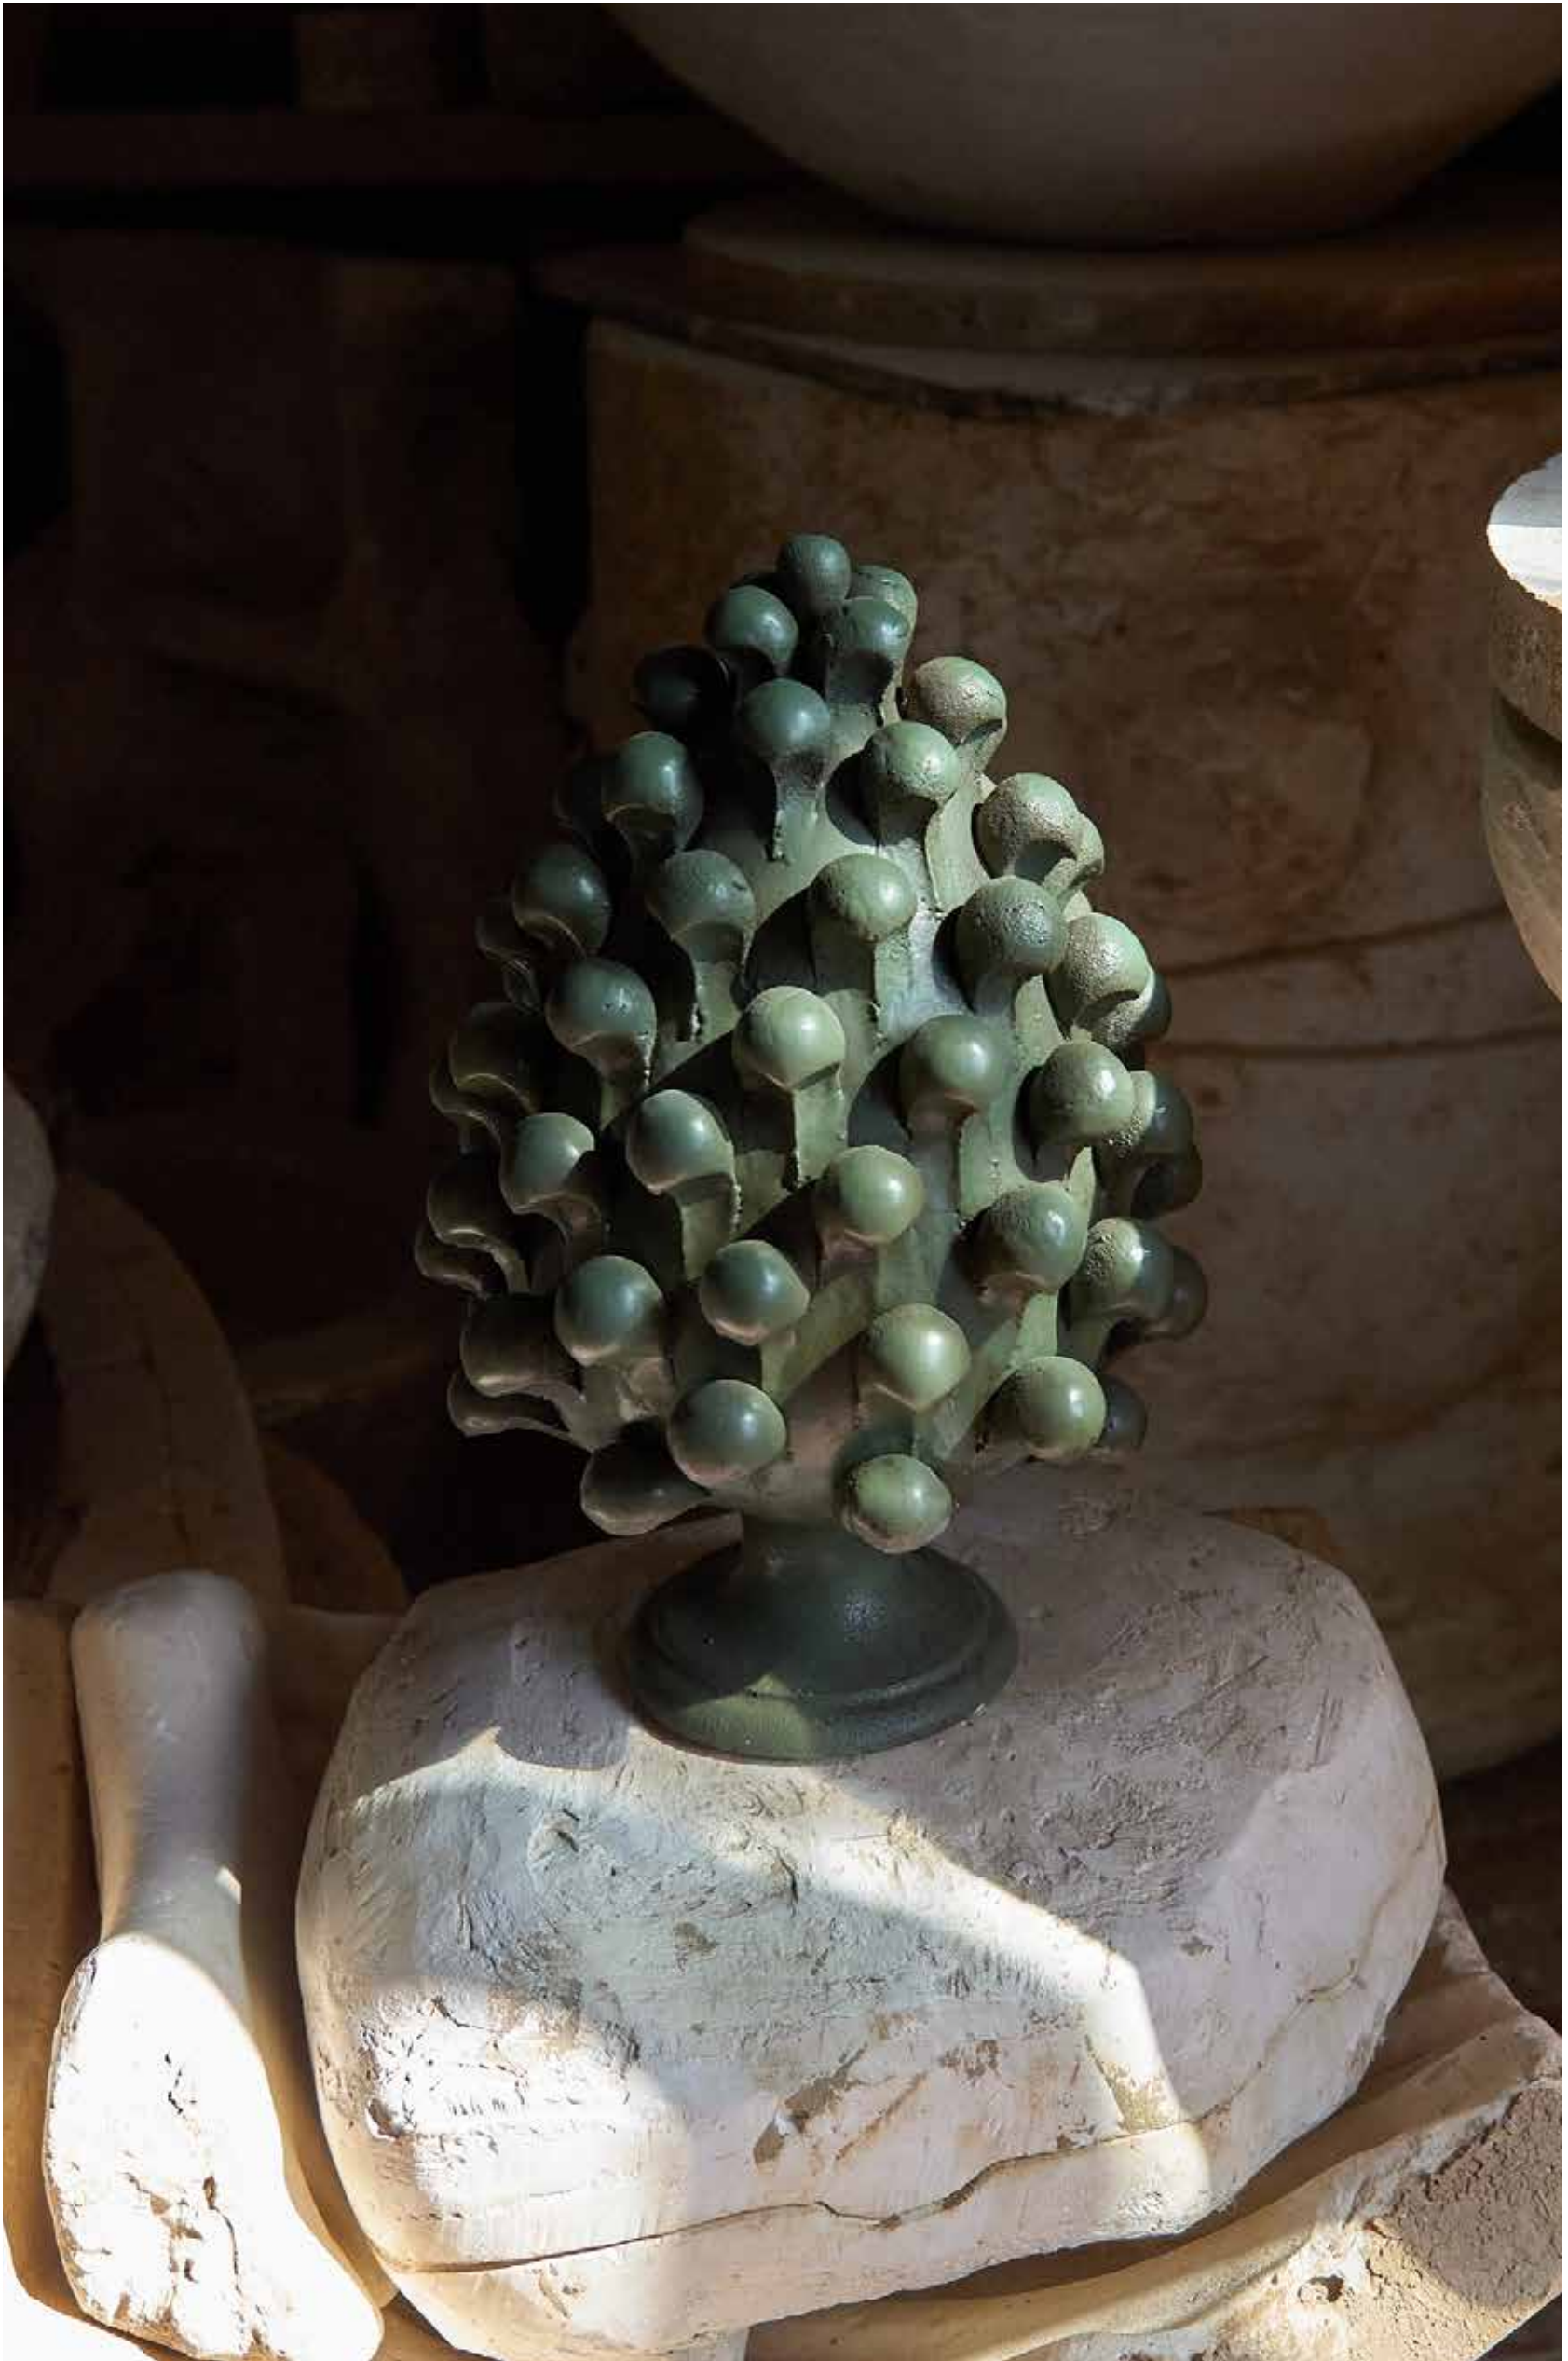

A selection of Ceccarelli's most iconic shapes. A series of tones inspired by the pine forests and shiny waters of the Mediterranean coasts. Curated and imagined for a villa in Amalfi as much as to bring authenticity to a sleek city apartment.
